

Joseph Spinks - CV

I'm a software engineer based in London with experience delivering efficient applications with clean code.

Education

Le Wagon Bootcamp - January 2023 - July 2023

- An intensive coding bootcamp focused on full-stack development. I built and deployed two applications, 'Band Spaces' an online marketplace for renting spaces to rehearse music, and 'Jamm' a geosocial networking application to find like-minded lovers of music.

University of Bristol September 2018 - September 2019: MSc, Quantitative and Qualitative Research Methods with Politics (Distinction)

- Experience working with large qualitative data sets.

Technology

- Programming Languages: Ruby, JavaScript, SQL
- Web Development: Ruby on Rails, Javascript(React, node.js), HTML5, CSS3
- Front-end Frameworks/Libraries: Bootstrap, jQuery, React
- Deployment: Heroku
- Testing Frameworks: RSpec, Capybara
- Database Technologies: PostgreSQL, SQLite, MySQL
- Version Control: Git, GitHub
